

The CV Series: Choose the perfect match for your business

What are your benefits?

Precise refraction

Accurate vision charts for every need

Quality and style

Proven quality meets modern design

Increased competency

Provide comprehensive service with a wide range of special tests

Personalisation

Program user-defined test sequences

Cross-age charts

Variety of fixation targets for children to gain their attention

Connectivity

Wireless connection to Phoromat 2000

“ I appreciate the flexibility in functionality and design. So all my expectations can be met. ”

A smart selection to suit your needs.

Specifications

	CHART PANELS		POLARISING CHART PANELS	
	CV 600	CV 900	CV 800P	CV 1000P
DIMENSIONS				
WDH (incl. frame)	583 x 55 x 423 mm	600 x 62 x 370 mm	583 x 55 x 423 mm	600 x 62 x 370 mm
Weight	5.7 kg	4.4 kg	5.7 kg	4.7 kg
Input	AC 100 V/240 V	AC 100 V/230 V	AC 100 V/240 V	AC 100 V/230 V
Frequency	50/60 Hz	50/60 Hz	50/60 Hz	50/60 Hz
Power consumption	35 – 45 VA	40 W	35 – 45 VA	40 W

CV Series Chart Panels

Making analysis fashionable

The Chart Panels

The chart panels CV 600 and CV 900 provide a lot of basic refraction charts and also a great number of special tests to determine the patients' visual acuity and vision capabilities. In addition to different optotypes, astigmatism tests and red-green tests, the chart panels are equipped with a low vision function, an EDTRS test, crowding bars, an Amsler grid, colour tests and much more.

CV 600

- Quick change of optotypes, visus types, and visus units available
- WiFi or Bluetooth communication to Phoromat 2000
- Uniform design appearance with Phoromat 2000

CV 900

- Wide variety of special tests like contrast sensitivity and colour separation
- Test reports are creatable in pdf format
- Infrared communication to Phoromat 2000

The Polarising Chart Panels

The polarising chart panels come with linear polarisation. In addition to the standard features, these panels offer a wide range of heterophoria and stereo vision tests.

CV 800P

- High-quality polarising display
- Precise image separation
- MKH test sequence
- Quick change of visus types, visus units, and optotypes available
- WiFi or Bluetooth communication to Phoromat 2000
- Uniform design appearance with Phoromat 2000

CV 1000P

- High-quality polarising display
- Precise image separation
- MKH test sequence
- Wide variety of special tests like contrast sensitivity and colour separation
- Infrared communication to Phoromat 2000
